

Department of State Supply Chain Management

FACT SHEET

Logistics & Supply Chain Management

Supporting the Worldwide Diplomatic Security Mission

From advanced procurement and supply chain processes to worldwide transportation and warehousing infrastructure, General Dynamics Information Technology provides comprehensive supply chain management for the Department of State's Bureau of Diplomatic Security (DS).

General Dynamics IT logistics and supply chain capabilities apply corporate expertise, infrastructure and resources to fulfill DS objectives. Through tailored and customized solutions, we exceed demanding Service Level Agreement (SLA) performance measures in support of the DS mission.

More than 4 million catalog items processed

More than 2 million non-catalog items processed

Reliable, Secure and Effective Global Supply Chain

- ✓ Procurement, warehousing, packaging, transportation and delivery of a wide variety of security-related products
- ✓ Consistently exceed order delivery SLAs
- ✓ Door-to-door shipping to virtually every Department of State facility worldwide, including high-threat posts
- ✓ Responsive, flexible and expandable processes and facilities to meet the constantly evolving DS mission

“...superior performance in an environment of constant change...”
